- the "Add +" buttons here do not work correctly. In the "Education" section it should add another university (what is inside the red). In "experience" it should add another company (what is inside the red)
- the edit button should change to "finish editing" when the user is in edit mode.
- Right now, in the section at the top ("my name is Jane smith…"), the green text becomes editable when the user presses "edit"... but it should also change back to green text when the user presses "finish editting".
- the responsiveness of this page needs a lot of work. test it by changing around the width of the browser, you will see what needs to be fixed
- The top container should be smaller, and the "Experience" container should move up, and not extend past the bottom of the nav menu. This applies to every page on the entire website.

Education   Skills & Interests

I am skilled at HTML5   , CSS3   and Bootstrap   □   There should be + icons next to each row. the plus should add a text field ONLY to that row

I am interested in Cricket   , Web   and Again Cricket   □

⊕ Add

this is not right, also it doesn't work

Hi! I'm Jane and I'
Here is a little blur
profile.

"skills and interests" also has similar problems to the past screen
